

Silver Springs Radio Club Field Day 2024

Special Edition

June 22-23, 2024, Green Clover Hall, Ocala FL

The Mission: Make Some Qs

Directed by Andy, NA4DA, the club made an all out effort to create a comfortable, technically up-to-date environment in which contacts could be made with minimum interstation interference.

The Goal: All 50 States and Canadian Provinces

We set up 4 stations in the air-conditioned comfort of our regular meeting location at Green Clover Hall covering SSB, FT8, and CW on 10, 15, 20, and 40.

Andy contributed the stations for SSB and FT8 including the computers required for networking. The rigs included: Yaesu FT710, Yaesu FT 991A, and an Icom 7300.

Marty N4GL brought her Flex-6400 to be used for SSB and CW when there was an CW operator available.

The antennas used were:

- Hustler 4btv Vertical 40-20-15-10, 16 33' radials.
- Dipole for 40 Meters

The finishing touches: Bandpass filters and triplexers.

The use of triplexers and bandpass filters allowed three stations to use the vertical at one time on each band without interference. The stations were networked and used N1MM+ logging software to facilitate logging and dupe control.

In Case You Missed it!

Check out this link to the Ocala Gazette Field Day article by Andy Filmore featuring our very own **Andy NA4DA**.
